# REMOTE TELEMATIC MONITORING

**Maximize Productivity While Reducing Maintenance Costs**

**TRACKMOBILE®**  
MOBILE RAILCAR MOVERS

## MAXIMIZE UPTIME...MINIMIZE DOWNTIME

Trackmobile® offers a telematics system that provides an integrated business solution to connect Trackmobile railcar movers to the right departments within a company. By enabling two-way communication and real-time changes in both machine and organizational processes, Trackmobile's telematics provides accurate and timely information on machine utilization, equipment health, impact detection, and other valuable data. Contact your authorized Trackmobile distributor to inquire about receiving helpful reports, as well as e-mails or text alerts if urgent maintenance conditions occur. With activation, the Trackmobile telematics system assists with:

### Deliver the Right Information, to the Right People, at the Right Time

#### Monitoring

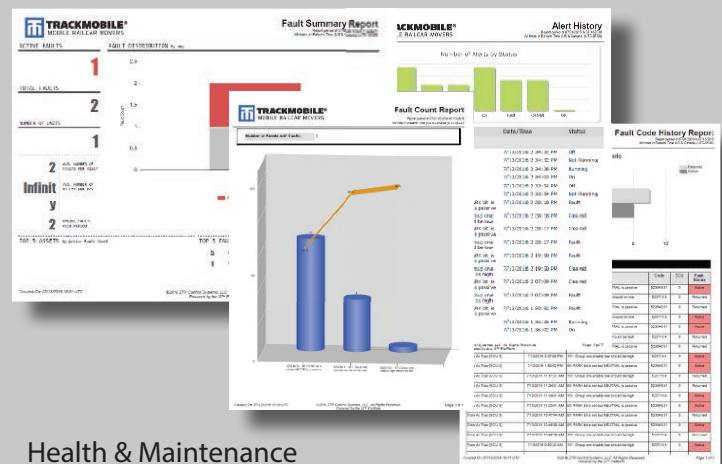

- Downtime prevention
- Engine performance data
- Impact strength and associated operational data
- Alert notifications via e-mail & text messaging

#### Utilization

- Run-hour based maintenance management
- Usage triggered notifications
- Utilization Tracking and Reports
- Site comparisons

#### Location, Security & Safety

- GPS mapping and zone targeting security
- GeoZone® triggered alarms & reporting
- Enhanced security options & Theft notification
- Temporarily disable asset communications

#### Health & Maintenance

- Onboard visual health status
- J1939 & custom fault monitoring
- Remote inspection and diagnostics
- Increase technician ability to complete service on first call with proper tools and parts

#### Targeted Reporting

- Data exporting
- Smart phone, computer and tablet apps
- Ad-hoc or scheduled report delivery
- Help managing /estimating operational expenses

#### Improved Value

- Improved productivity
- Improve insurance premiums
- Reduced service and maintenance costs
- Improve resale/trade-in value (7-10% estimated increase)

#### Managing

- Sensor monitoring
- Improved operator performance review quantification
- Improved maintenance & repair scheduling
- Notifications of upcoming and past due maintenance requirements

**NOTE:** A Monitoring System is not a replacement for regular maintenance and safe operating procedures.

Use of the telematics system and its associated services may be subject to additional terms and conditions in effect from time to time.
